

Wherever There is Pro AVL . . . There is LynTec

Every power control panel LynTec has ever made is reliable, protective and brilliantly simplistic. Switching at the circuit level is our legacy. While our heritage is in venues like Madison Square Garden, the Austin City Limits Stage at the Moody Theater and the like, our future is everywhere there is amplified sound, performance lighting and distributed video to control.

NARROW PROFILE PANELBOARD COLUMN-WIDTH PANELS FOR THE RPC AND LCP SERIES

Extend The Reach Of Power Control

LynTec narrow profile panels utilize the same Square D Powerlink motorized circuit breaker hardware platform as the standard RPC and LCP panels but requires significantly less horizontal wall-space. RPC and LCP series panels can now be installed on support columns or in electrical closets where horizontal space is at a premium.

- 208Y/120V or 480Y/277V
- LCP and RPC series compatible
- Top-fed configuration
- 30 or 42 space options
- Main breaker or Main Lug Only (MLO)
